## **CAM Parole Status Report (July 1, 2022)**

Pursuant to paragraph 9 of the April 12, 2019, Memorandum of Agreement (MOA), USCIS submits this “thirteenth quarterly report” of its implementation progress. Unless otherwise noted, the information in this report is current as of June 23, 2022.

### **Continuing Impact of Coronavirus on CAM Processing**

As of June 12, 2022, the CDC will no longer require air passengers traveling from a foreign country to the United States to show a negative COVID-19 viral test or documentation of recovery from COVID-19 before they board a flight. IOM will be discontinuing COVID-19 testing before traveling since it is no longer a requirement.

El Salvador does not have a curfew and does not have limitations on travel. However, the Salvadoran Ministry of Health can place municipalities under special quarantine with limited or no prior notice when a high number of COVID-19 cases are detected. In El Salvador, IOM is scheduling 15 beneficiaries per week for medicals because each beneficiary needs to have a COVID test 48 hours before the medical screening. The COVID tests are being scheduled on Mondays and Tuesdays and the medical exams are on Wednesdays, Thursdays, and Fridays.

Guatemala does not have a curfew and does not have limitations on travel. Public transportation vehicles authorized to operate by the government are functioning at 50 percent maximum occupancy. This includes transportation for interdepartmental travel.

The Government of Honduras suspended its national curfew as of October 1, 2021. Individuals remaining out after 10pm are required to carry their COVID-19 vaccination card documenting proof of vaccination.

The U.S. Embassy in El Salvador continues with limited on-site work. The US Embassy in Guatemala allows work in person as usual. Both local USCIS field offices are open to the public by appointment only.

In El Salvador locally employed staff (LES) and direct hire USCIS staff can work in the office on a full-time basis five days a week. The USCIS office in El Salvador can conduct CAM re-interviews and biometric collection in their office.

At the U.S. Embassy in Guatemala, staff are working in the Embassy in person on a full-time basis, though episodic telework is available. The USCIS office in Guatemala City is conducting biometrics at their office but with limited capacity. Appointments are available for biometrics for a variety of USCIS beneficiaries, not only CAM parole, on Wednesdays and Thursdays for three hours each day and on Friday mornings for up to 15 applicants. A limited number of interview appointments are also available on Tuesdays and Thursdays. CAM re-interviews can be conducted at the consular window using the privacy booth on Tuesdays or Thursdays in the afternoon. The USCIS office in Guatemala City has been able to request that refugee case adjudicators assist with a limited number of CAM parole re-interviews at RSC facilities.

Some IOM staff is working from home in El Salvador, Guatemala, and Honduras. The field staff and other staff members that have direct interaction with the beneficiaries come to the office regularly. The CAM medical staff come to the office weekly to prepare reports that are given to the beneficiaries before departure. All other staff members are working from home. There is no projected date for return to the office.

IOM is currently in the process of hiring additional staff. Out of eight positions, six in El Salvador and two in Honduras, IOM has recruited five staff members in El Salvador and one staff member in Honduras. The hiring of the other two positions (one in El Salvador and one in Honduras) will be finalized in the next few weeks. IOM has selected candidates, and they are currently completing the IOM mandatory background screening process.

### **CAM Travel Updates**

IOM anticipates additional beneficiaries will travel next quarter, after qualifying family members in the U.S. complete the medical payments for the beneficiaries.

### **Assumptions**

The submitted timeline represented the *fastest* estimated process based on historic information assuming all external parties met the estimated milestones but will be updated as more information becomes available. The estimated timeline does not account for unforeseen circumstances, such as the closures due to the COVID-19 pandemic.

### **Timeline Updates**

Steps: Estimated timelines are approximate and may shift depending on unforeseen factors as well as those noted above.

Further to paragraph 8 of the MOA, USCIS notes the following progress on the Compliance Plan. For reference, USCIS has reproduced the tasks, estimated timeline and comments from the Compliance Plan, and provided a status update and date of completion on each tasking.

IOM will begin to collect money and schedule new medical exams for all beneficiaries	Estimated August 26, 2019.	Actual timeframe depends on the family's ability to produce the money for the fee and the limited availability of physicians. There are five panel physicians in El Salvador, where the vast majority of beneficiaries will seek a new medical exam. There are four in Guatemala and three in Honduras. Last time, it took approximately one month for IOM NY to collect payment from parents in the United States.	In process.	In July 2019, USCIS began providing applicants with the option to schedule medical exams and pay the panel physician directly. 431 applicants had been given an instruction sheet by USCIS on how to schedule their own appointments. IOM has now assumed this task. IOM has contacted 1,756 applicants for payment of their medical exams as of June 21, 2022. This number includes individuals who have been contacted for payment, whose medical payment has been completed, and those with medical payments pending.
USCIS will begin to receive submitted medical exams, required for all beneficiaries.	Estimated September 9, 2019.	Actual timeframe of medical exam results will depend on available physicians.
