

90-Day Report in Compliance with Settlement Agreement for Executive Order 13815, Doe (JFS) v. Trump

Date of Settlement: February 7, 2020

The number of cases/individuals listed in Appendix A to the settlement agreement was 167 cases/315 individuals. Between the dates the data was pulled for Appendix A to the settlement agreement and the signing of the agreement, one baby was added to a case. In addition, one case within the scope of the settlement was inadvertently not included. The Government has provided information on that case in a Confidential Appendix A to the May 7, 2020 Report that lists the case number and the part of the settlement it falls within. Therefore, the cases/individuals the Government is actively tracking that are in the scope of the settlement are 168 cases/319 individuals.

Part 1 (I-590): I-590 designated Ready for Departure in WRAPS on October 23, 2017		
	Cases	Individuals
In Process	7	29 ³

¹ As reported in Appendix A to the Settlement Agreement, some cases appear in multiple parts. As a result, the report numbers for each part, when added, exceed the total number of cases in the settlement.

² For further clarity, the case count for Forms I-730 is based on the case numbers that WRAPS assigns to Forms I-730. A separate Form I-730 must be filed for each qualifying family member. In WRAPS, a single case number is sometimes assigned to a family, i.e., multiple Forms I-730 filed by the same petitioner. In CAMINO, however, each Form I-730 is counted as a separate case. Thus, in CAMINO the case count for Forms I-730s is equivalent to the number of individual beneficiaries. We confirm that the information regarding the status of each I-730 petition comes from CAMINO and is reflected in the “individuals” column count.

³ Due to the addition of new children to two cases during the reporting period, the number of individuals in this Part has increased by two. Adding these children to the cases requires additional processing that may cause delay.
